

I, _____ understand that the five challenges that I will be presented this year in my Transit small group will take discipline and extra effort on my part to complete. I understand that there is a time commitment on my parents, my leaders and me. I also understand that there is a financial commitment that my parents and my leaders are willing to investment in my development as a Man of God. I take this agreement seriously and will work diligently to complete each challenge and lead my family (where necessary) through this process.

By executing this agreement, you have my word that I will make my Transit small group a priority in my life and strive to do the following:
